## JOB DESCRIPTION

### Pre-amble

Japan Cycling Federation (JCF) is the recognized authority by the UCI (Union Cycliste International), JSC (Japan Sports Council) and JOC (Japan Olympic Committee) on all aspects of cycling in Japan. JCF is responsible for the management and development of the sport from the national team at the elite level, including Olympic, Paralympic and Asian Games.

JCF, through its High-Performance Center (HPC), aims to create and sustain an effective system that develops talented Japanese track cyclists to achieve Olympic, Paralympic and World Championship medal performances.

### Short Description

Monitor and record sporting performances, liaising with coaches and athletes in training and competition environments to leverage performance through data analysis.

### Reports to

Head Coaches and Lead Sports Scientist.

### Main Responsibilities (include but are not limited to)

- Provide Performance Analysis services for Track and Strength and Conditioning training programs, through the delivery of innovative techniques.
- Work alongside Coaches to include Performance Analysis and use objective data and information (video and numerical) to impact performance.
- Collect objective and subjective athlete feedback on training load, intensity and recovery.

- Deliver technology training and Performance Analysis education to athletes and coaches.
- Educate athletes on performance analytical techniques to develop their individual racing repertory and enhance tactical awareness in competition.
- Stay updated with sports requirements by locating and reviewing sports specific webs, journal resources and competitor analysis.
- Continually develop Performance Analysis methods to peak performance.

**Requirements** (include but are not limited to)

- PhD or Master's Degree in Sports Science or related Performance Analysis area.
- Strong knowledge and skills using technology.
- Experience in working as a Performance Analyst with high performance athletes, preferably in cycling.

**Key Competencies and Behaviors** (include but are not limited to)

- Problem solving capability.
- Ability to work with attention to detail.
- Good people skills and team player within a multidisciplinary high-performance team environment.
- Excellent communication, organisation and computer skills.
- Good command of the English language – both verbal and written.

**General**

- Travel throughout Japan and internationally will be required.
