JOB DESCRIPTION

Pre-amble

Japan Cycling Federation (JCF) is the recognized authority by the UCI (Union Cycliste International), JSC (Japan Sports Council) and JOC (Japan Olympic Committee) on all aspects of cycling in Japan. JCF is responsible for the management and development of the sport from the national team at the elite level, including Olympic, Paralympic and Asian Games.

JCF, through its High-Performance Center (HPC), aims to create and sustain an effective system that develops talented Japanese track cyclists to achieve Olympic, Paralympic and World Championship medal performances.

Short Description

Monitor and record sporting performances, liaising with coaches and athletes in training and competition environments to leverage performance.

Reports to

Head of Performance Science.

Main Responsibilities (include but are not limited to)

- Provide Performance Analysis services for Track training programs, through the delivery of innovative techniques.
- Work alongside Coaches to provide Performance Analysis solutions, resulting in the creation of objective data and information (video and numerical) to impact upon performance.
- Deliver technological solutions within the training and competition environments that are readily accessible to Coaches, Athletes and support staff colleagues.
- Stay up to date with the sport requirements by locating and reviewing sports specific documentation, journal resources and competitor analysis.
- Lead and complete special assigned side projects.
- Any other work agreed with the Head of Performance Science.

Requirements (include but are not limited to)

- Degree in Sports Science or related Performance Analysis area.
- Strong knowledge and skills using technology.

Key Competencies and Behaviors (include but are not limited to)

- Highly self-motivated with a strong work ethic.
- Takes great pleasure in helping others.
- Highly dependable with a very strong attention to detail.
- Problem solving capability.
- Good people skills and team player within a multidisciplinary high-performance team environment.
- Excellent communication, organisation and computer skills.
- Good command of the English language – both verbal and written.

General

- Extensive International travel will be required in addition to travel throughout Japan.
