Communiqué I

Anti-doping Communiqué

1. Drug testing at this event will be performed according to UCI Anti-doping rules.
2. Drug testing will be conducted at the doping control room in the IZU velodrome.
3. Every rider has the obligation to personally make sure if he is required to attend the anti-doping control.
4. Riders selected for anti-doping will be identified on a list by their race number or their place in the ranking.
5. The list will be posted at the entrance of the anti-doping room and communiqué board immediately after the race.
6. The riders selected for the controls will be notified by a chaperone; the notified rider shall remain within sight of the chaperone at all times from the moment of in-person notification until the completion of the sample collection procedure.
7. Team officials should not prevent the chaperone to continuously observe the rider. Should no chaperone be present, the rider shall proceed immediately to the doping control station.
8. The absence of a chaperone shall not excuse the rider for not reporting in time to the doping control station.
9. Each rider to be tested must present himself at the doping control station as soon as possible and at the latest within 30 (thirty) minutes of finishing the race. If a rider takes part in an official ceremony or attends a press conference, the deadline shall be 30 (thirty) minutes of the end of the ceremony or of the moment that his presence is no longer required at the press conference.
10. Riders must report to the doping control station with their license; but if it has no photograph, another official document (e.g. passport) with a photo must be presented. The rider may be accompanied by a person of his choice and an interpreter.

SAKAMOTO Yoichi
UCI Doping Control Officer
